Hall-Thorpe Sports activities have been developed to increase children's body, space, relationship and effort awareness while improving their self-esteem.

Hall-Thorpe Sports encourage children and staff to incorporate their surroundings during game time to promote imaginative thinking.

All programs focus on developing children's sports skills particularly within the 'critical window' of opportunity between 3PM and 6PM.

All games and activities are suited to primary school-aged children and are supervised by skilled and qualified educators.

We believe children who are physically active are more likely to see improvements in their overall wellbeing and schoolwork.

The program encourages children to be physically active and reduce sedentary behaviours by promoting a screen-free environment.
